## *Our Creed*

I believe in the Executives' Association because it stands for mutual interest, service from each to all, for cheerful co-operation for more real efficiency, for success based on merit, for interchange of useful information, for constant progress in things that are worthy. I believe in the Association because its precepts urge me on, always satisfying, always promising: and though it has hours of leisure and lighter vein, yet it is an association with a purpose and does not forget, that its members do not idly dream or drift, but have hard work to do and loads to lift.
