The Covid-19 positive numbers are rising again. I bet that so are the recovery and the negative test numbers, but that is not politically notable is it?

Today's speaker was Mother Nature

The meeting today was cancelled because of the record breaking snow storm. You can see from the items below, the decision to postpone the great food, service and camaraderie for a week was probably a very smart one.

◆ **The remaining November and December, 2020 Tuesday morning meetings are scheduled to be breakfast meetings at Rio Bravo Brewing Company. Obviously, we will continue to follow all the requirements of wearing masks and social distancing. Our in-person breakfast meetings are far-and-away the best way for us to keep in touch. And, in spite of the coronavirus and the various restrictions hoops that we have to jump through, we are able to have a very enjoyable and productive time. Please plan to be at Rio Bravo (1912 2nd St NW) at 7:00am this coming Tuesday. President John has been doing a great job at having everyone out of there by 8:00am.**

As a recent observation noted: No one got it right when 5 years ago they were asked “What will you be doing in 2020?”

December 31, 2019

WHO’s Country Office in the People’s Republic of China picked up a media statement by the Wuhan Municipal Health Commission from their website on cases of ‘viral pneumonia’ in Wuhan, People’s Republic of China.

January 21, 2020

Chinese Scientist Confirms COVID-19 Human Transmission...However, the WHO is still unsure of the necessity of declaring a public health emergency.

A Washington state resident becomes the first person in the United States with a confirmed case of the 2019 novel coronavirus.

February 3 — US Declares Public Health Emergency

March 11 — WHO Declares COVID-19 a Pandemic

March 13 —President Trump Declares COVID-19 a National Emergency

March 11—New Mexico’s first cases were announced

March 13—NM PHO issues order prohibiting mass gatherings of 100 or more

March 19—Food Service restricted to take-out only

March 23—NM Governor issues stay at home order for all non-essential personnel

And it goes on and on. But you already know all the stuff regarding actions and activities in our city and state. If you are interested in specific details for progression here, as well as in the USA, just search for “coronavirus time lines” on the internet.

But you have survived to this point, so keep up the effort. Know that you are not alone in tough times and that help, advice, and just a good friend are no farther away than your EAGA directory. Keep on keeping on. The world will become a better place...maybe sooner, or maybe later, but it definitely will.
